

# Impact of Grazing and Trampling for East Loch Erich Deer Management Group Area, 2014

## Overall Grazing and Trampling Impact Classes due to Wild and Domestic Herbivores

Deer Management Group Area Boundary

Assessment of Impact Class carried out during field survey have been indicated in the appropriate 1/4 km or part 1/4 km squares

The overall Grazing and Trampling Impact Class for each vegetation type in each Management Unit has been derived by calculating the mean Impact Class from surveyed areas

Field Survey by: A J Nolan  
GIS and Map design by: D Donnelly

See Accompanying report 'Rapid Assessment of Grazing and Trampling Impacts on Upland Habitats for East Loch Erich Deer Management Group Area' (Nolan et al. 2014) for further information.
